Directions: In this activity, you will read a passage. Then, you will answer questions about the passage. Fill in the circle next to the correct answer.

Terry's Fruit Salad

Terry is making a fruit salad. He goes to the grocery store to buy the fruit he needs. He has \$25.00 to spend. This is the cost of the fruit.

Box of Strawberries	\$5.00
Box of Blueberries	\$3.00
Box of Raspberries	\$4.00
Kiwi	\$1.00
Watermelon	\$6.00

1. Which fruit has the greatest cost?

- (A) Box of Strawberries
- (B) Watermelon
- (C) Blueberries
- (D) Raspberries

2. Terry needs to buy two kiwis. Which equation represents this?

- (A) $2 + 1 = 3$
- (B) $2 - 1 = 1$
- (C) $2 \times 1 = 2$
- (D) $\frac{2}{1} = 1$

3. Terry's recipe calls for:

- One watermelon
- One box of strawberries
- One box of raspberries
- Two kiwis
- One box of blueberries

Does Terry have enough money to buy all of the fruit?

- Ⓐ Yes, he has more money than the total cost.
- Ⓑ Yes, he has the exact amount of money.
- Ⓒ No, he has less money than the total cost.
- Ⓓ No, he forgot his money at home.

4. One box of blueberries holds forty blueberries. Terry's recipe calls for one half of that. How many blueberries does Terry need?

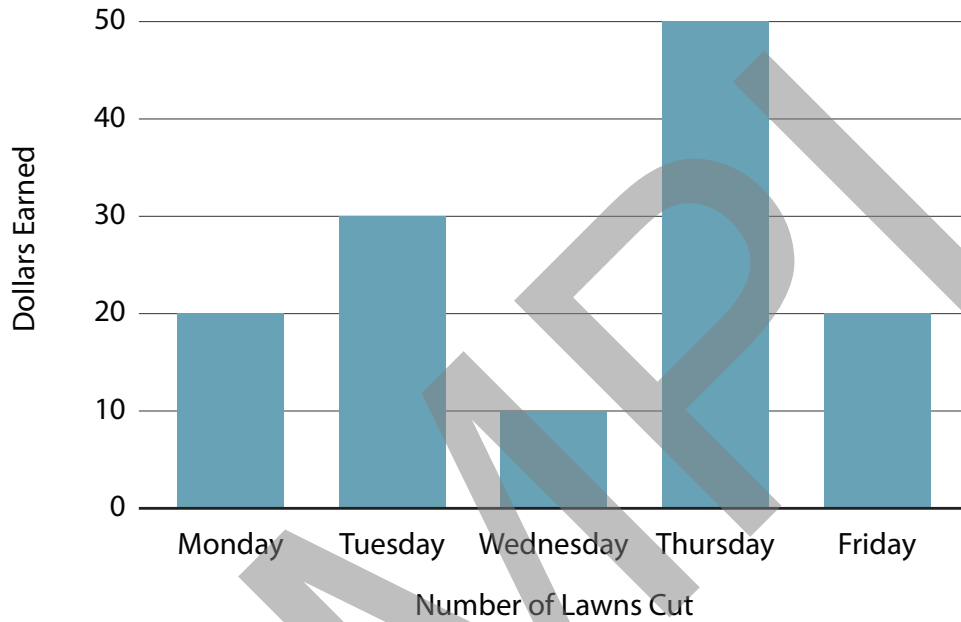

- Ⓐ Twenty
- Ⓑ Fifteen
- Ⓒ Eighty
- Ⓓ Forty
