Name _____

the Golden Room

Jess helped the Burkes remodel the old Perkins place. Answer the following questions about the work they might have done in the golden room. Show your work on another sheet of paper. Then make some plans for the room using the sample floor plan at right.

Floor Plan

1. Imagine that the walls were covered with 5 layers of old wallpaper—1,250 square feet total. How many square feet would they have left to remove when they were $\frac{2}{3}$ of the way done?

2. If the Burkes wanted to repaper the walls someday, how much wallpaper would it take?

3. Painting the living room walls would require 2 coats of paint. Imagine that a gallon of the gold paint covered 400 square feet. How many gallons of paint would Bill have needed to buy?

About what percentage of the paint would he have used?

4. Imagine that it took the group 35 hours to paint the trim and scrape the excess paint off the windowpanes. If Bill worked twice as long as Leslie, and Leslie worked twice as long as Jess, how many hours did each of them work?

Name _____

Dealing with Grief

Grief is a series of emotions we experience when we lose someone dear to us. There are five distinct stages of grief: denial, anger, guilt, depression, and acceptance. Jess experienced each stage of grief. Write the actions that

demonstrated each stage of Jess's grief in the boxes below. Be sure to include a page number for each action you record.

Denial

Anger

Guilt/Regret

Depression

Acceptance/Resolution
